

EVERYBODY FITS IN

Children are represented by different shapes

Children who are on the spectrum have unique characters

This is Tommy. He has a condition called Autism.

Children on the spectrum are introduced through short cutscenes

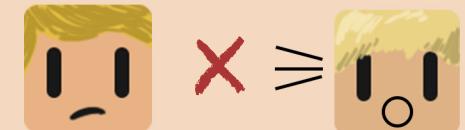

The object of the game is to fit all of the children into the classroom

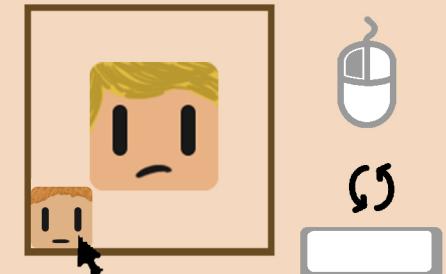

Children on the spectrum start out in the classroom and can't be moved

Tommy doesn't like loud noise

Sometimes the player is given hints to where children can be placed

Left click and drag the shapes to move them. Spacebar rotates the shapes

Finishing the level will unite everyone in a rainbow!
